(54) Title: INTERFACE DEVICE

(57) Abstract: An interface (4) between a digital device (6) for transmitting and/or receiving a digital stream and a computer (2) comprises a digital stream transmitter/receiver (transceiver) (20), a computer bus interface (12) and a data converter (14, 16 & 18). The digital transceiver transmits digitally streamed content and/or receives digitally streamed content to/from the digital device. The computer bus interface receives/provides data to/from a computer bus of a computer for use by the computer and/or as provided by the computer. The data converter converts data received by the digital stream receiver into data useable by the computer from the computer bus and/or converts data received by the computer bus interface into digitally streamed data for transmission by the digital stream transmitter.
